

REUSSIR LIMITED ENVIRONMENTAL POLICY

Reussir Limited is a Brick/Block & Stonework Sub-contractor that works to the highest standards in the construction industry. We are based at our new offices in Cardiff Bay and have a wealth of experience working in the South Wales area. We have assisted in the construction of many prestige developments in the area such as the Cardiff City stadium, the International Swimming Venue at Cardiff Bay and the National Assembly of Wales building in Merthyr Tydfil.

Reussir recognises that concern for the environment should be an integral and fundamental part of its operations. As a result, it is our aim to achieve environmental excellence through the implementation of an Environmental Management System that meets the requirements of ISO 14001:2004, whilst also supporting government policy for sustainable development.

In particular we will:

- Integrate environmental management into all organisational activities.
- Ensure compliance with all relevant local, national and international legislation and regulations.
- Ensure all staff, including contractors, actively supports our environmental programmes.
- Communicate our environmental policy to all interested internal and external parties.

We will seek to reduce our environmental impacts and improve sustainability through:

- A commitment to achieving continual improvement in our environmental performance and preventing pollution.
- The minimisation of material and energy usage in all operations.
- Endeavouring to maximise recycling opportunities and the reduction of unnecessary disposal of raw materials and other waste products.
- The provision of appropriate resources and the necessary training for staff, to ensure that they are able to fulfil the commitment given in this policy.

This policy will be reviewed at least annually and will form the basis of all future environmental improvements.

Signed:

Roger Byrne (Managing Director)
